# Personal Finance Credit Policy Memory Kit

Remember the whole policy with 3 proven techniques

### 1 · See it – Mind map

The whole policy on one page in 8 branches. Builds the structure your memory hangs facts on.

### 2 · Code it – Memory hooks

14 number codes (e.g. **50-30 · 20-15 · 48-60**) that compress every key limit.

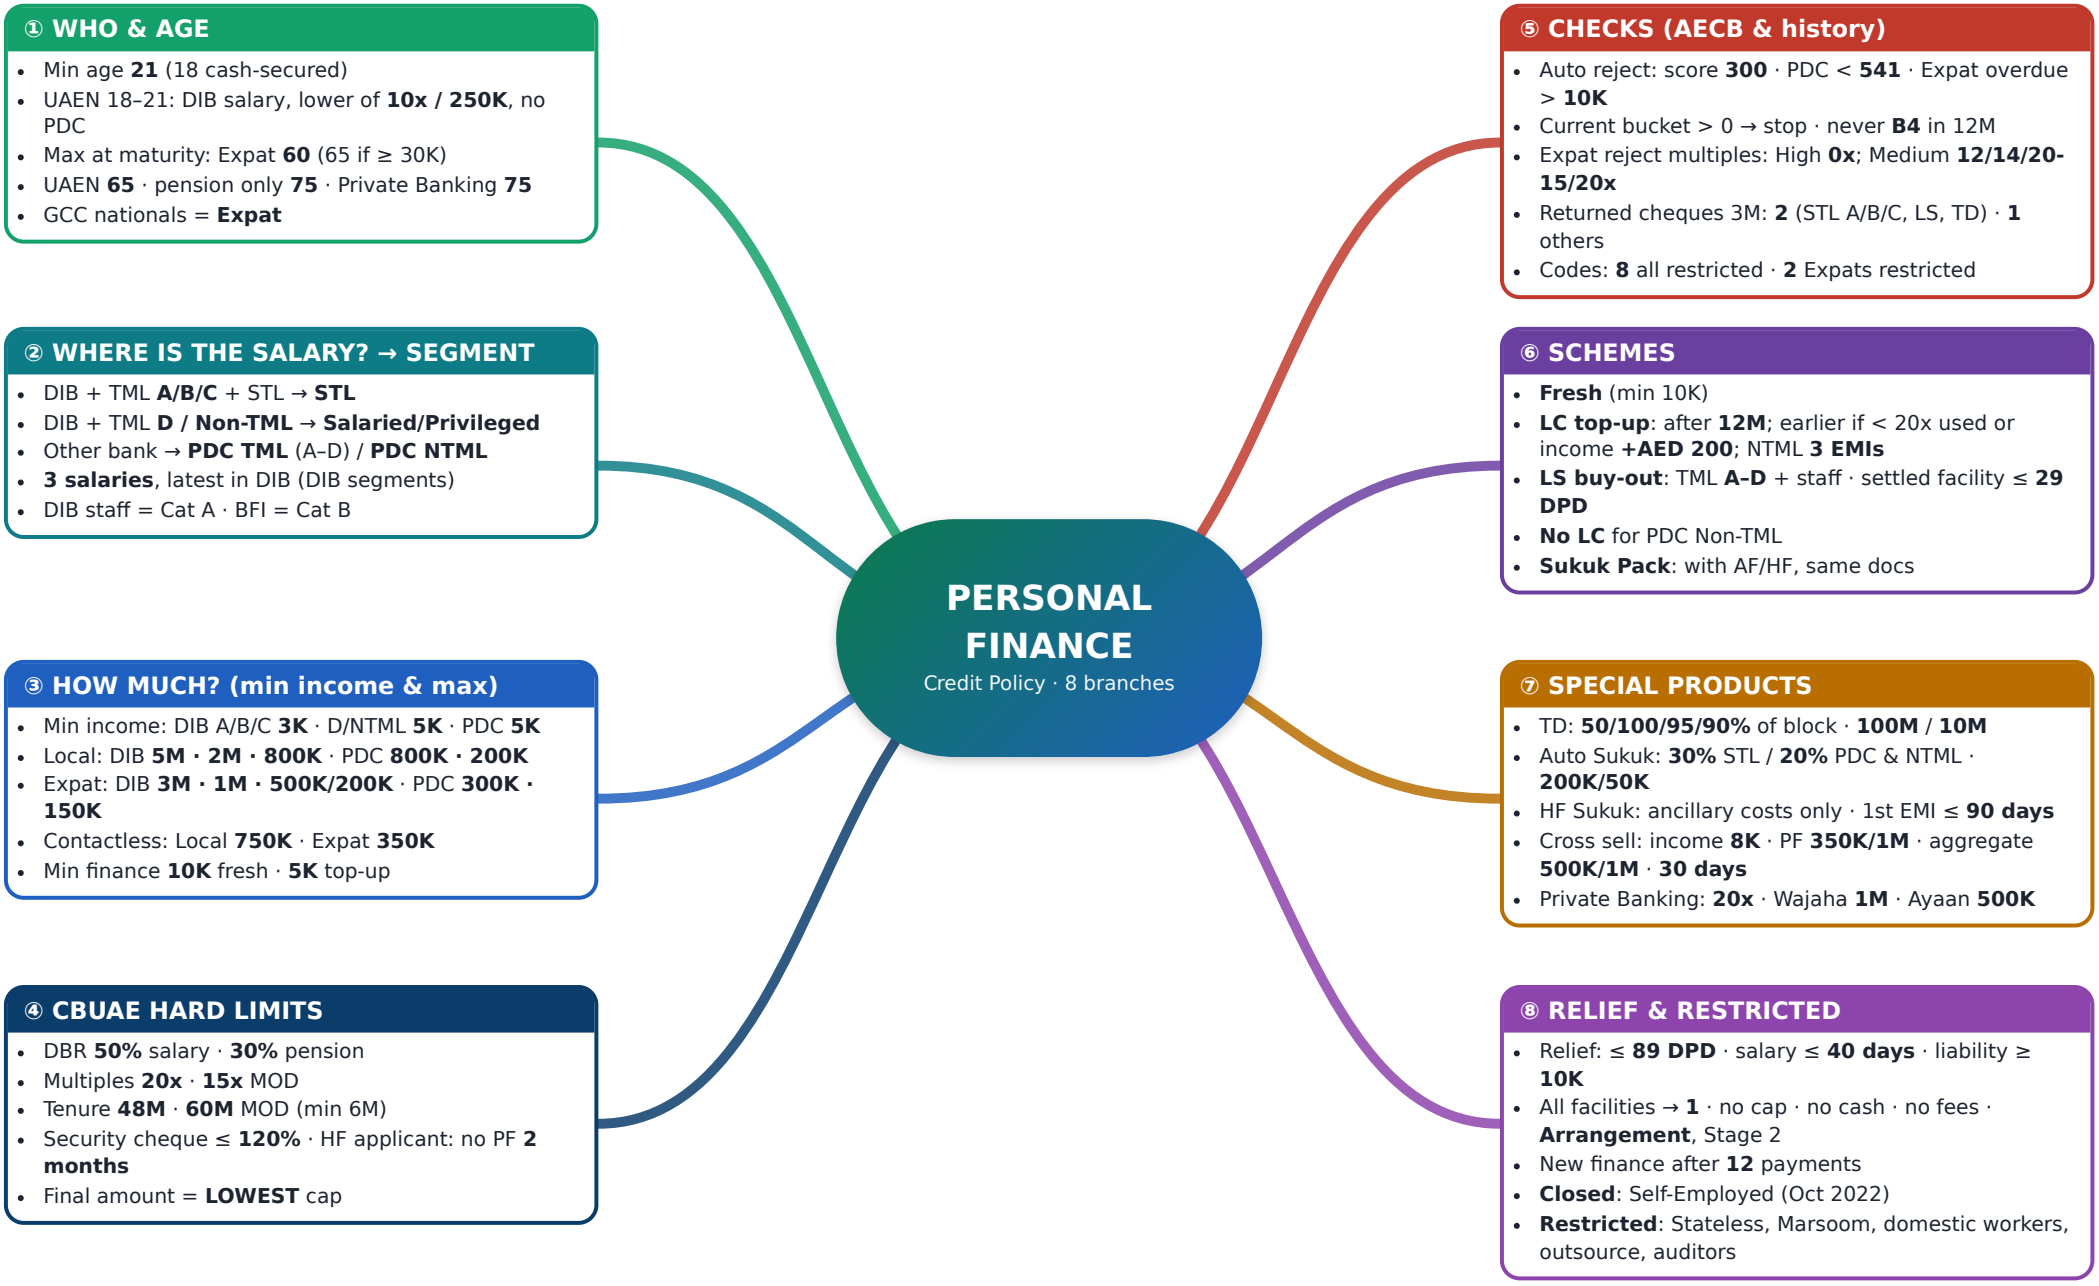

### 3 · Test it – Active recall + spaced repetition

98 flashcards reviewed on Days 1-3-7-14-21. Testing yourself is far more effective than re-reading.

Based on DIB Personal Finance Operating Credit Policy (ref. 2026-07-0005 | 002306) and Credit Circular effective 15 Feb 2026. Companion files: Training Guide · 100 Exam Questions · Segments Tree · Critical Points · offline flashcard app.

# Mind Map – the whole policy on one page

Start at the centre and go clockwise from top-left: Who → Where → How much → Limits, then Checks → Schemes → Special products → Relief & restricted. Redraw it from memory on blank paper to test yourself.

# Memory Hooks – 14 codes for every key number

Learn the code first, then what each number means. Recite them aloud – each code unlocks a whole table.

# 21-Day Spaced Repetition Plan

Short, spaced sessions beat one long session. Review just before you would forget.

| Day | What to do (15–25 minutes) | Tool |
|---|---|---|
| **Day 1** | Read the mind map branch by branch. Say each branch out loud from memory, then check. Learn the 14 memory hooks. | Mind map · Memory hooks |
| **Day 2** | Go through all flashcards once. Cover the answer, say it, then check. Tick ✓ only if fully correct. | Flashcards / app |
| **Day 3** | Repeat only the cards you missed + redraw the mind map on blank paper from memory. | App "Due" mode · blank paper |
| **Day 5** | Exam practice: Parts A–E of the 100-question exam. Note every wrong answer → back to its flashcard. | 100 Exam Questions |
| **Day 7** | All flashcards again (second full round). Recite the 14 hooks without looking. | App · Hooks |
| **Day 10** | Exam practice: Parts F–J. Use the decision tree to classify 10 imaginary customers. | Exam · Segments tree p.2 |
| **Day 14** | Missed cards only + redraw the mind map. Target: 90% of cards in box 4–5 in the app. | App · blank paper |
| **Day 21** | Final check: full exam without looking at answers. Target ≥ 90 / 100. Re-study only weak topics. | 100 Exam Questions |
| **Monthly** | 10-minute refresh: hooks + app "Due" cards. Update the cards whenever a new credit circular is issued. | App |

**Rules that make it work:** (1) Always try to answer *before* looking. (2) A card is "known" only if every number is correct. (3) Missed cards come back sooner – known cards come back later. (4) Explain a rule to a colleague in your own words – teaching is the strongest test. (5) When a new credit circular is issued, update the matching card the same day.
