

# 1A

## How do humans affect the health of the oceans?

### ENGLISH

- What animals live in the ocean?
- Can you name all the oceans?

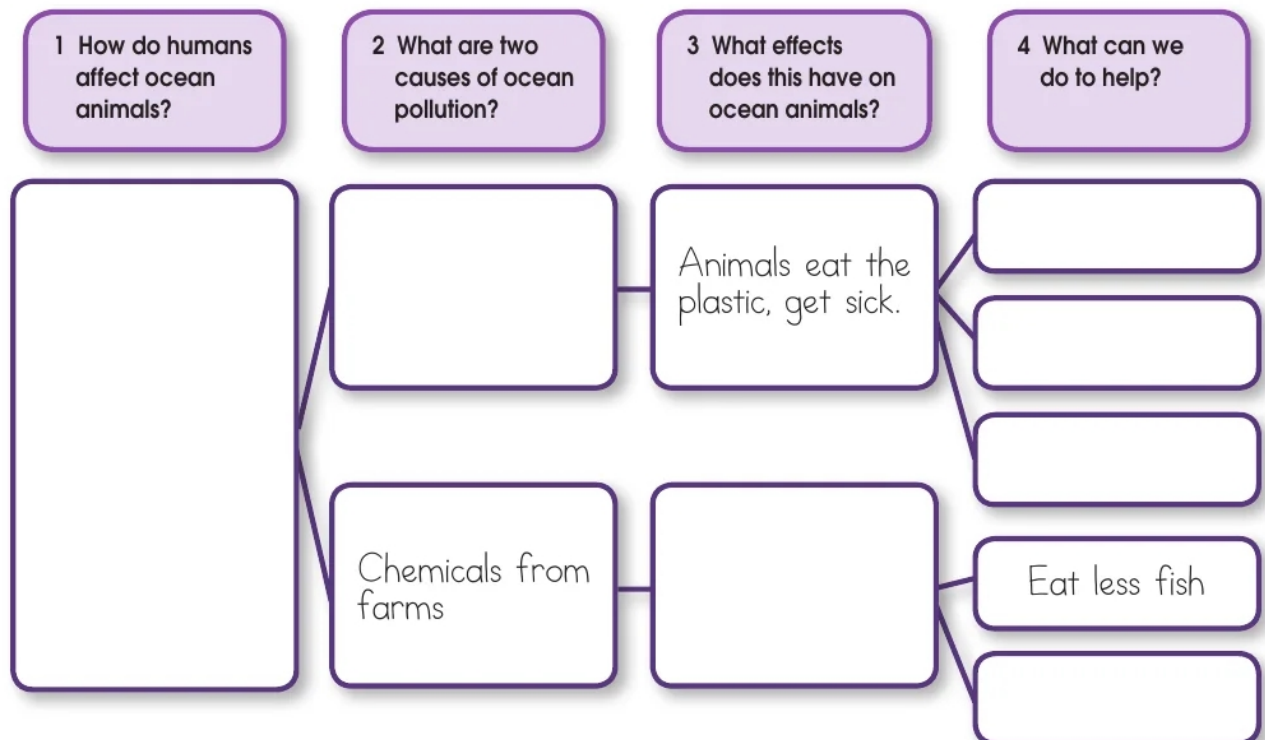

### SPEAKING

- 1 With a partner, discuss what you see in the picture. How might this affect the ocean?

### LISTENING

- 2 Listen to Lamy's podcast. Who is her guest today? What do they discuss?
- 3 Listen to the podcast again. Answer questions 1-4 in the graphic organizer.

## Listening Strategy

While listening to someone give a lot of information, it is important to take notes. That way, you don't forget what you heard. For example, you hear: "Sharks need a lot of food to live. They eat fish, seals and turtles, but also eat plastic and other garbage. These have toxins that can be harmful."

In your notes, you could write:

- Need a lot of food
- Eat fish, seals, turtles
- Eat plastic and garbage (harmful)

Notice that there are no articles (the, a) or other functional language. Only write down key words like nouns and verbs.

- 4  Listen to the next episode of the podcast. The sentences below describe how toxins get from farms to people. Put the sentences in the correct order in the timeline.

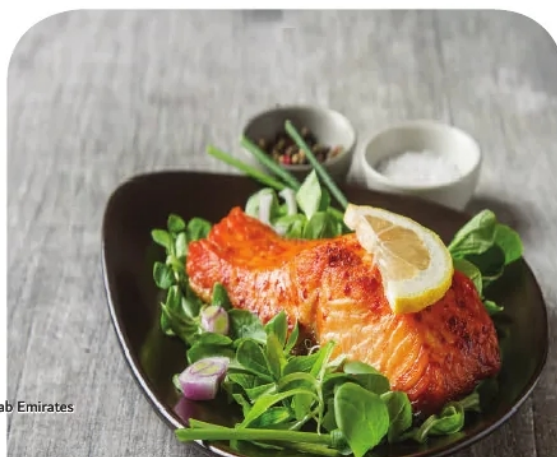

1. Humans catch the bigger fish and eat them.
2. Chemicals are used on fruits and vegetables to help them grow and kill insects.
3. Big fish eat these small fish and also get toxins in their bodies.
4. Rivers carry the rainwater and chemicals to the ocean.
5. Little fish eat these chemicals and take toxins into their bodies.
6. Rain washes the chemicals off the fruits and vegetables.

## Speaking Tip

Notice that when you say have to, the words link together. We say /hæftə/.

We /hæftə/ recycle our plastic bottles.

# 1A

## How do humans affect the health of the oceans?

1 Circle **True (T)** or **False (F)** next to the statements.

- 1 Plastic garbage and oil spills are the two causes of ocean pollution discussed in the podcast. T/F
- 2 Chemicals from farms are not harmful to ocean animals. T/F
- 3 Some ocean animals get stuck in plastic. T/F
- 4 Eating organic food helps reduce the plastic in oceans. T/F
- 5 We should be careful about the kind of fish we eat. T/F

2 Read this article about plastic in the oceans. Fill in the missing words using the vocabulary in the box. Each word can be used only once.

current • harmful • toxins • surface  
impact • floats • decompose • plastic

<sup>1</sup> ..... is used in most of the things we have. It also makes up a lot of our garbage. Some of this garbage is dumped into the ocean. The ocean's <sup>2</sup> ..... carries garbage far from land. Plastic <sup>3</sup> ..... on the <sup>4</sup> ..... of the water. Because it takes so long to <sup>5</sup> ....., plastic stays in the ocean for many years. This has a(n) <sup>6</sup> ..... on the animals living in the ocean. These animals eat the plastic, which is <sup>7</sup> ..... to them. This is because plastic has <sup>8</sup> ..... that are bad for them, and for us.

3 Read the text again. Take notes about what you learned about plastic. Remember to keep your notes short.

- **Plastic used for many things** .....
- .....
- .....
- .....

## Language Tip

You can use the modals **"must"** or **"have to"** when you want to express when someone has to do something.

The modal comes between the subject and the verb. They are different from **"could"** and **"should"**, which are used to give advice and help. You use **"must"** and **"have to"** when you want to give an order or give an order or a rule. For example:

*You should study for the exam.*

*You must study for the exam!*

The first example is giving advice, such as someone telling his friend that he should prepare for the exam. The second example is an order, such as a teacher telling a student to study for the exam.

- 4 Read the following pollution problems. With a partner, think of something you can do to help with this problem. Write a sentence using **"must"** or **"have to"** :

- a There is too much garbage on the beach.

.....  
 .....

- b There are too many cars on the roads.

.....  
 .....

- c We are using too much water.

.....  
 .....

- d We are wasting too much electricity.

.....  
 .....

# 1B

## What should we do to clean up the oceans?

### ENGLISH

- Why is there so much garbage in the ocean?
- How could we use technology to clean our oceans?

### LISTENING

- 1 Listen to three people expressing their opinions about cleaning the oceans. What technology do they mention?
- 2 Listen again and answer the questions.
  - 1 What does Mariam want to study in college?
  - 2 Do all scientists agree that the nets in the ocean will solve the pollution problem?
  - 3 What water sport does Jack enjoy?
  - 4 What animal did he and his friend rescue?
  - 5 What sport does Mark do after work?
  - 6 Does Mark think nets in the ocean are the best solution?
- 3 Listen again while you read the audio script. Underline the words *feel*, *think*, *believe*, *should*, and *opinion* every time they appear.

### SPEAKING

- 4 Discuss your opinion about ocean cleanup with your partner. Which technology do you think / feel / believe is the best?

#### Speaking Tip

Use phrases like *I feel (that) we should ... I think (that)...*, and *I believe (that)...* to express opinions.

Use *because* to justify your opinion.

*I think that we should use X technology because ...*

#### Did You Know?

According to research, scientists estimate that our oceans contain a minimum of 171 trillion particles of plastic .

- 5 The government of your emirate has asked you to participate in a talk about how to keep the sea clean. First, discuss your ideas with your colleague(s) and make notes.
- 6 Work in small groups. Make a list of your three best suggestions to present to the government for consideration.

| Things the government should do: | Technology the government should use: |
|----------------------------------|---------------------------------------|
|                                  |                                       |

# 1B

## What should we do to clean up the oceans?

1 Put the words from the box into the correct column.

garbage • technology • huge • trash • installed • ocean • floats • harbor

| noun    | verb | adjective |
|---------|------|-----------|
| garbage |      |           |
|         |      |           |

2 Match the words to their pronunciation.

- |   |            |                 |
|---|------------|-----------------|
| 1 | garbage    | a /hjudʒ/       |
| 2 | technology | b /'gɑrbɪdʒ/    |
| 3 | huge       | c /ɪn'stɔld/    |
| 4 | trash      | d /'hɑbər/      |
| 5 | installed  | e /traʃ/        |
| 6 | ocean      | f /fləʊts/      |
| 7 | floats     | g /tɛk'nælədʒi/ |
| 8 | harbor     | h /'oʊʃən/      |

3 Read the text and fill in the blanks with the words from Activities 1 and 2.

### WATER WHEEL

Pollution in the **'ocean** is a serious problem. One city, however, has found a way to help by collecting trash before it <sup>2</sup>..... out to sea. This is thanks to a machine that has been <sup>3</sup>..... in the city's <sup>4</sup>..... . Using a mix of new and old <sup>5</sup>..... , this water wheel has removed more than a million pounds of <sup>6</sup>..... over the last three years. The way it works is very simple. A wheel connected to a machine is moved by the current, which powers a conveyor belt, which in turn pulls <sup>7</sup>..... out of the water. The machine also has solar panels for extra power. The city plans to build more water wheels in its harbor to help even more with the <sup>8</sup>..... amount of pollution reaching our oceans.

- 4 Express opinions using *I feel (that) ...*, *I think (that) ...*, and *I believe (that) ...*.  
Talk about your favorite foods, sports teams, and hobbies

- 1 I think that four-cheese pizza is the best food on the planet!
- 2 .....
- 3 .....

### Language Tip

**Should** is a modal verb, which can be used to:

- make suggestions
- make recommendations
- give advice

The negative of **should** is **should not** and the contraction is **shouldn't**.

Use phrase *I think/don't think (that) you* in front of **should /shouldn't** to sound more polite. Complete the phrases below using **should** or **shouldn't**.

*think you should drink more water.*

*I don't think you should stay up so late.*

- 5 A friend is telling you about some problems they have. Match each problem to a suggestion.

- |                                                      |                                         |
|------------------------------------------------------|-----------------------------------------|
| 1 I am always tired.                                 | a You should study hard.                |
| 2 I have too much free time.                         | b You should message him.               |
| 3 I have a big exam soon.                            | c You shouldn't go to that salon again. |
| 4 I miss my cousin who is away at college in the US. | d You shouldn't go to bed so late.      |
| 5 I got my hair cut yesterday and I don't like it.   | e You should play more sports.          |

- 6 Give more suggestions to your friend using *should*.

- 1 I am always tired.  
*I don't think you should go to bed so late, and you should drink less coffee.*  
.....
- 2 I have too much free time.  
.....
- 3 I have a big exam soon.  
.....
- 4 I miss my cousin who is away at college in the US.  
.....
- 5 I got my hair cut yesterday and I don't like it.  
.....

# 1C

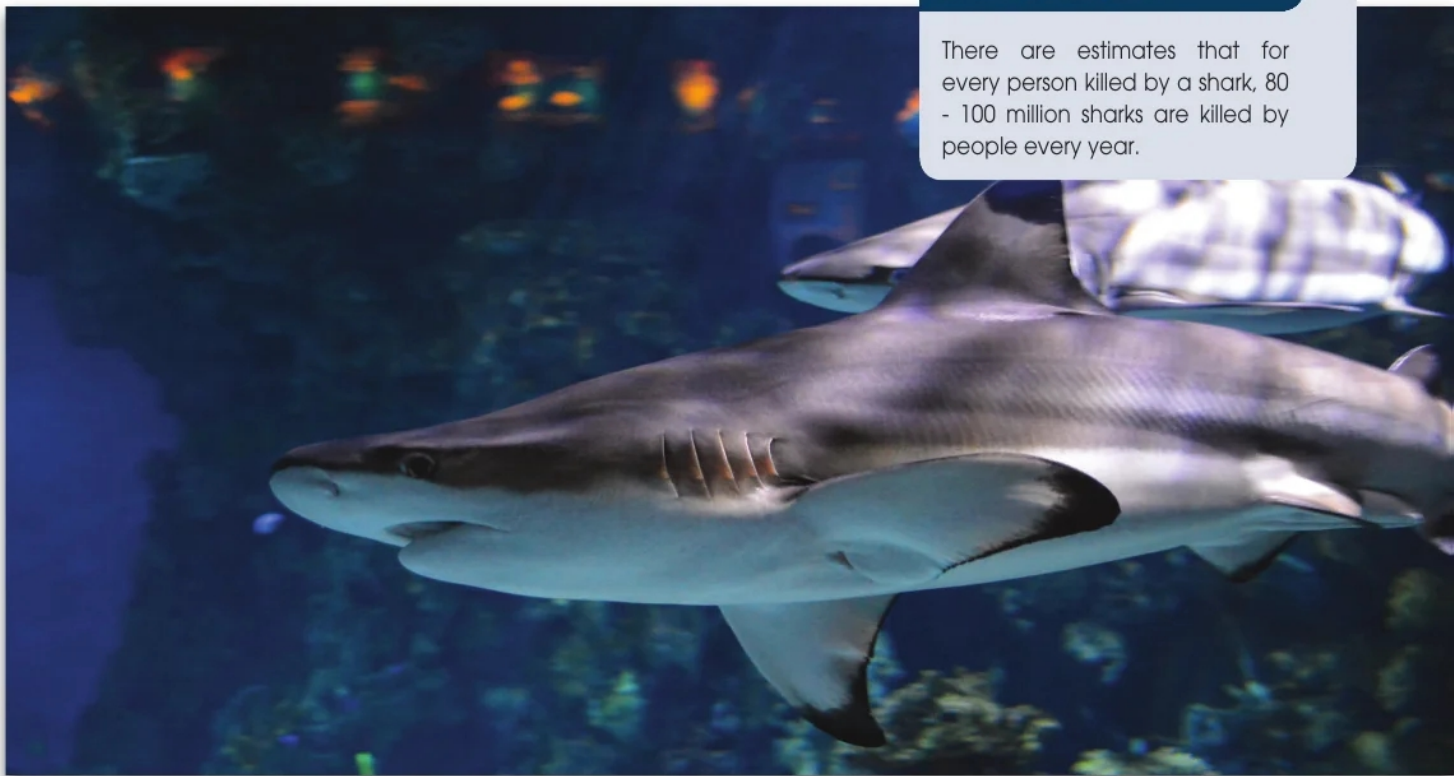

## Sharks: friend or foe?

### ENGLISH

- Why are sharks seen as mean and scary fish?
- What thoughts come to your mind when you see two images below?

#### Did You Know?

There are estimates that for every person killed by a shark, 80 - 100 million sharks are killed by people every year.

### LISTENING

- 1 Listen to a radio interview. There are two speakers who have different opinions about sharks. Identify which speaker thinks sharks are friends, and which speaker thinks sharks are foes. Write the speaker's name on the lines below.

- 1 Friend : .....
- 2 Foe : .....

- 2 Listen to the radio interview again. Read each statement, and tick who said it.

|                                                                                                                                                         | Dr. Badi | Mr. Ruhi |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|----------|----------|
| "Well, I think sharks are very dangerous. They can hurt us when we are swimming! Imagine you and your family are at JBR Beach and someone is attacked!" | .....    | .....    |
| "Well, I disagree. I think that sharks are important for the oceans for many reasons. For one, they eat a lot of fish."                                 | .....    | .....    |
| "I believe most sharks are not dangerous at all, and some of the least dangerous ones are the biggest."                                                 | .....    | .....    |

## SPEAKING

- 3  With a partner, take turns expressing an opinion about the following questions:

- 1 How do we affect the health of the oceans?
- 2 What should we do to clean up the oceans?
- 3 Are sharks dangerous?

### Language Tip

#### Syntax Code

SVO (Subject - Verb - Object)

e.g., Sharks will eat you.

SVC (Subject - Verb - Complement)

e.g., Sharks are amazing.

## LISTENING

- 4  Listen to the radio interview again. Gather ideas that will help you respond to the following question: Are sharks our friends or not?

Write your answers in the table. Provide reasons for your answer.

| Our friends... Why? | Not our friends... Why not? |
|---------------------|-----------------------------|
|                     |                             |

### Expressing Opinion

*I think that ..., I am sure ..., In my opinion ...*

When you express your opinion, you are telling someone your ideas or thoughts about something so that they can give you their opinion.

opinion + (SVO/SVC)

**In my opinion**, sharks are amazing. (SVC)

**I believe that** sharks will eat you. (SVO)

**I think** sharks are dangerous. (SVC)

## SPEAKING

- 5  Discuss whether you are for or against sharks, with a partner. Use the table from the Activity 4 to help you.

### Sharks: Friend or Foe?

| For:                                         | Against:                                                     |
|----------------------------------------------|--------------------------------------------------------------|
| <i>I think, I believe, In my opinion ...</i> | <i>I don't think, I don't believe ..., In my opinion ...</i> |

# 1C

## Sharks: friend or foe?

1 Fill in the spaces with the correct words from the vocabulary box.

foe • **fin** • food chain • attack • carnivores • protect • predator

- 1 We knew it was a shark when we saw its tall, triangle-shaped ..... **fin** ..... come up through the water.
- 2 Most sharks are ..... because they mainly eat meat.
- 3 There has always been a conflict between ..... and prey in the animal kingdom.
- 4 Sharks are near the top of the ..... because they are the strongest predators in the ocean.
- 5 He used to be my good friend but now he has become my .....
- 6 Some people believe that sharks will ..... them if they swim in the ocean.
- 7 It is important to ..... sharks so they can be safe in our oceans.

2 Unscramble the words to make a complete sentence. Underline each expression of opinion.

- 1 people / dangerous / some / all / sharks / think / are  
.....
- 2 believe / all / protect / should / I / we / sharks  
.....
- 3 in / most / are / harmless / my / sharks / opinion  
.....
- 4 she / ocean / it / not / thinks / is / safe / to / swim / in / the  
.....
- 5 Badi / food / Dr. / believes / for / sharks / the / are / good / chain  
.....

**3** Choose the correct word for expressing opinion in each sentence.

- 1 I ..... (sure, think) that sharks are amazing.
- 2 In my ....., (feeling, opinion) they need to be understood.
- 3 I ..... (believe, am) sure that they are mostly harmless.
- 4 I ..... (think, opinion) that sharks should live in peace.
- 5 I ..... (believe, opinion) they need to be protected.

**4** Using the same expressions from Activity 3, write a complete sentence expressing an opinion about something you've experienced.

- 1 I ..... is an amazing person.
- 2 I ..... is a great place to visit.
- 3 In my ..... will be a great place to visit for a vacation
- 4 I ..... sure my family .....
- 5 ..... my opinion, I will be a great ..... in the future.....

**5**  Using what you've learned about sharks and how to express an opinion, write five sentences arguing whether you are *for* or *against* sharks.

- 1 .....
- 2 .....
- 3 .....
- 4 .....
- 5 .....

**6** Read each of your sentences above. Check (✓) the boxes below if the answer to the question is yes.

| Is this information about sharks? | Do you argue for or against sharks? | Are expressions of opinion used correctly? |
|-----------------------------------|-------------------------------------|--------------------------------------------|
|                                   |                                     |                                            |

## Why do some sea creatures glow?

## ENGLISH

- Why do many animals that live in deep water make light?
- What does this light do?

## READING

- 1 Read the encyclopedia entry about animals that make light. What information is given in Part A and Part B? Write the letters on the lines below.

- 1 general information .....
- 2 how it uses light .....

## Reading Tip

Encyclopedia entries are summaries of information. When you need quick facts about a topic, they are a good first source to check.

## Part A: Vampire Squid

Not many animals have a name as strange as the vampire squid. You might think this is a dangerous creature, but it really isn't. The vampire squid is an animal that lives in the deep sea and can produce light, or glows. It feeds on small creatures that float in the ocean. The vampire squid has lights on different parts of its body. It uses these lights to lure its prey and protect itself. Its body can release glowing liquid to escape from predators: animals that are trying to eat it. This glowing liquid might confuse a predator. While the predator is looking at the glowing liquid, the squid can get away.

## Part B: Anglerfish

Being ugly doesn't mean you can't be cool. Just ask the deep-sea anglerfish. It lives near the bottom of the ocean. The deep-sea anglerfish does not make its own light. Instead, it has glowing bacteria that live inside its lure. The bacteria get food and stay safe inside the anglerfish, and the anglerfish gets the glow from the bacteria. So, they are both happy. Probably one of the best-known glowing creatures, the deep-sea angler uses a lighted lure to attract its prey. The lure hangs near its mouth. It moves the lure to attract prey. When other fish see the small light, they think it's something they can eat. When they get close enough, the anglerfish eats them up with its giant mouth. The mouths of an anglerfish are so big and their bodies are so soft that they can eat prey up to two times their own size.

- 2 Read the two encyclopedia entries about animals that make light again and answer the questions.

- 1 The vampire squid is a terrible creature. **True False**

Which sentence from the text best supports your answer?

- a Not many animals have a name as terrible as the vampire squid.
- b You may think this is a terrible creature, but it's really not.
- c The vampire squid is an animal that lives in the deep sea and makes light, or glows.

- 2 The vampire squid eats creatures that glow. **True False**

Which sentence from the text best supports your answer?

- a The vampire squid is an animal that lives in the deep sea and makes light, or glows.
- b It uses these lights to lure its prey.
- c It actually eats small creatures that float in the ocean.

- 3 The vampire squid has a light on one place on its body. **True False**

Which sentence from the text best supports your answer?

- a The vampire squid has lights on different parts of its body.
- b It uses these lights to lure its prey.
- c It also uses light to protect itself.

- 4 The vampire squid uses lights to lure prey and protect itself. **True False**

Which sentence from the text best supports your answer?

- a It actually eats small creatures that float in the ocean.
- b The vampire squid has lights on different parts of its body.
- c It also uses light to protect itself.

- 5 The vampire squid uses glowing liquid to get away from predators. **True False**

Which sentence from the text best supports your answer?

- a While the predator is looking at the glowing liquid, the squid can get away.
- b It uses these lights to lure its prey.
- c The vampire squid has lights on different parts of its body.

## Language Tip

## Modals of Speculation

**could, may, might**

Use the modals of speculation to say what you think is true.

They **could** use it to + verb

They **may** use it to + verb

They **might** use it to + verb

- 6 The anglerfish makes light. **True** **False**

Which sentence from the text best supports your answer?

- a Just ask the deep-sea anglerfish.
- b It lives near the bottom of the ocean.
- c The deep-sea anglerfish does not make its own light.

- 7 The anglerfish has glowing bacteria in its lure. **True** **False**

Which sentence from the text best supports your answer?

- a The bacteria get food and stay safe inside the anglerfish, and the anglerfish gets the glow from the bacteria.
- b Instead, it has glowing bacteria that live inside its lure.
- c The deep-sea anglerfish does not make its own light.

- 8 The glowing bacteria are not good for the anglerfish. **True** **False**

Which sentence from the text best supports your answer?

- a The bacteria get food and stay safe inside the anglerfish, and the anglerfish gets the glow from the bacteria.
- b Probably one of the best-known glowing creatures, the deep-sea angler uses a lighted lure to attract its prey.
- c Instead, it has glowing bacteria that live inside its lure.

- 9 Fish think that they can eat the anglerfish's lure. **True** **False**

Which sentence from the text best supports your answer?

- a The lure hangs near its mouth.
- b When other fish see the small light, they think it's something they can eat.
- c Probably one of the best-known glowing creatures, the deep-sea angler uses a lighted lure to attract its prey.

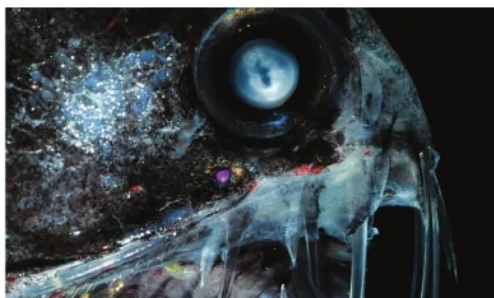

- 10 The anglerfish can only eat small prey. **True** **False**

Which detail from the text supports your answer?

- a When other fish see the small light, they think it's something they can eat.
- b The lure hangs near its mouth.
- c The mouths of an anglerfish are so big and their bodies are so soft that they can eat prey up to two times their own size.

## SPEAKING

- 3 Look at the pictures of these two glowing animals. How do you think these animals use light? Discuss with your partner. Use the language tips in the box above.

**Viper Fish**

- deep sea
- eats small fish and shrimps
- teeth so big they can't fit inside its mouth

**Big Fin Reef Squid**

- warm water, Pacific Ocean and the Red Sea
- also known as calamari, popular food
- has blue blood

# 1D

## Why do some sea creatures glow?

**1** Match the words with their meanings. Use the texts from page 17 and page 20 to help you. The words are underlined in the texts.

- |            |                                                                     |
|------------|---------------------------------------------------------------------|
| 1 glow     | a an animal that kills and eats other animals                       |
| 2 creature | b any type of animal                                                |
| 3 deep     | c (n.) something used to attract and catch animals; (v.) to attract |
| 4 shine    | d to shine with a low, steady light                                 |
| 5 predator | e an animal that gets eaten by another animal                       |
| 6 prey     | f extending far down from the surface                               |
| 7 lure     | g to give out light                                                 |

**2** Complete the dialogues with *may*, *might* or *could*.

Example:

A: What do you think it uses the light for?

B: It might use the light to lure prey

1 A: Where might the prey hide?

B: .....

2 A: .....

B: It could use the glow to communicate.

3 A: Where could the glow come from?

B: .....

4 A: .....

B: The light may attract other fish.

5 A: How might the predator lure its prey?

B: .....

- 3 Read the text about **bristle worms**. Look back at the two texts about glowing animals in your Coursebook. Complete the table with facts about the glowing animals.

## Bristle Worms

If you want to make friends, you need to know how to shine. Bristle worms do just that. They get their name from their many bristles, or hair-like body parts that look like small legs. There are more than 10,000 different types of bristle worms in the oceans. They live in many ocean environments, from open water to the deep sea. Bristle worms have existed for a very long time, over 500 million years. Many bristle worms glow. They often swim near the surface of the water and begin to glow at certain times. Not all of them glow in the same way. Some may shine with a green light, while others might produce short flashes. For bristle worms, this light display helps them communicate with each other.

|               | Where it lives | General information | How it uses light |
|---------------|----------------|---------------------|-------------------|
| Vampire Squid |                |                     |                   |
| Anglerfish    |                |                     |                   |
| Bristle Worm  |                |                     |                   |

## WRITING

- 4  Work in pairs. Use the notes in Activity 3 in the Coursebook to write an **encyclopedia entry** about the Viper Fish and the Big Fin Reef Squid. Use the following guidelines:

- Think about what the animals use their light for.
- Write complete sentences.
- Use the encyclopedia entries to help you.
- Add your own ideas to your sentences.

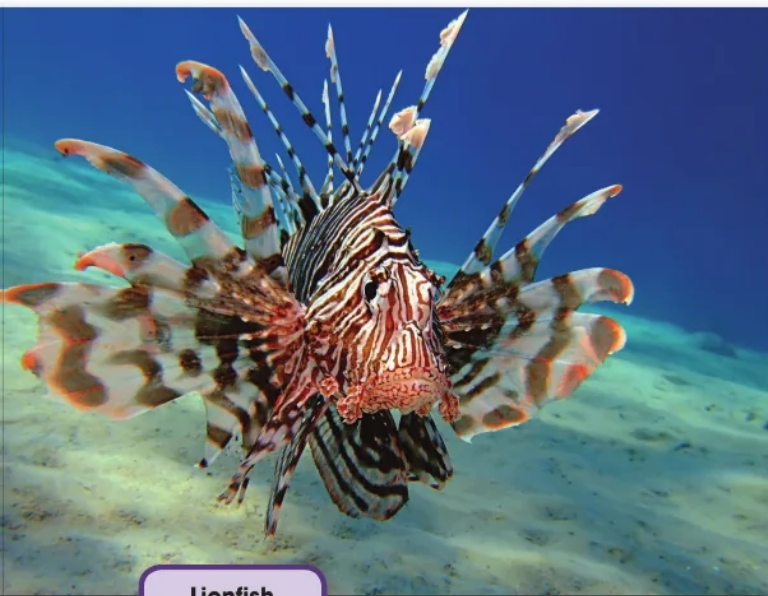

# 1E

## What makes an ocean creature unusual?

### ENGLISH

- Do you know of any unusual ocean creatures?
- Are any of them dangerous? How?
- Which ocean creatures in the pictures do you think are interesting? Why?

Lionfish

Pufferfish

### LISTENING

- 1 Listen to the podcast interview. Which of the fish in the pictures did Nayef catch?
- 2 Listen to Nayef describe the unusual sea creature. Circle the features below that he describes.

big and round • big eyes • colorful  
spikes all over its body • stripes  
poisonous • sharp teeth • big fins

- 3 Listen to the interview again. Are the sentences **True (T)** or **False (F)**? Write **T** or **F**.

- 1 Nayef went fishing on his friend's boat. ....
- 2 The first fish Nayef caught escaped. ....
- 3 Nayef looked for information on his laptop. ....
- 4 The fish he caught was poisonous. ....
- 5 Abdulla also caught a fish. ....
- 6 Omar caught a jellyfish. ....

## WRITING

- 4 Look at the example of an informative text about the bigfin reef squid. Underline the linking words.

### Bigfin reef squid

*The bigfin reef squid is a very unusual sea creature. First of all, it's very colorful. It's a mixture of blues, greens, browns, and purple. Also, its eyes are big and bright. In addition, it has large fins on its body. This adaptation allows the bigfin reef squid to move easily around reefs when looking for food. In addition to fins, it has long, thick tentacles. It is an amazing, unusual ocean creature. However, it's not the only one ...*

### Writing Tip

Linking words are helpful to improve organization and fluency when writing. They help with sequencing and making longer sentences. For example:

*I caught a fish. I ate it.*

*I caught a fish and then I ate it.*

*It had big eyes. It didn't have fins.*

*It had big eyes, but it didn't have fins.*

- 5 Look at the unusual creature. Make notes about why it is unusual. Use the questions below to help.

- How big is it?
- What shape is its head?
- What color(s) is it?
- How many fins does it have?
- Where are its eyes?
- How many teeth do you think it has?

### Did You Know?

Bigfin reef squids have the fastest recorded growth rate of any marine invertebrate.

Also, like many other squids, they release a jet of ink when they are scared.

## What makes an ocean creature unusual?

### 1 Match each word with its description.

- |               |                                                                    |
|---------------|--------------------------------------------------------------------|
| 1 poisonous   | a to get away from something                                       |
| 2 adaptation  | b to send a message                                                |
| 3 fishing rod | c a painful feeling                                                |
| 4 tentacles   | d an object used to attract fish                                   |
| 5 communicate | e an object used to catch fish                                     |
| 6 escape      | f squid and octopus have these                                     |
| 7 lure (n)    | g something dangerous that can cause pain and/or death             |
| 8 sting       | h a biological change to be able to live better in the environment |

### 2 Circle the correct possessive form in the sentences below.

- 1 I went fishing with my friends on my **uncles's / uncle's** boat.
- 2 I checked all my **friends' / friend's** fishing boxes for a new lure.
- 3 We put it straight back in the ocean because we didn't want to get a sting from the **jellyfish's / jellyfishs'** tentacles.
- 4 **Its / It's** eyes are big and bright.

### Use of English

The **possessive** is used with nouns referring to people, groups of people, countries, and animals. It shows that one thing belongs to another.

For example:

*Ahmed's house*

To form the **possessive** add apostrophe + **s** to the noun. If the noun is plural or already ends in **s** just add an apostrophe after the **s**.

For example:

*The students' desks*

However, if a noun is not a plural but ends in an **s**, it is also okay to add the extra "s".

For example:

*Faaris's pen*

*Faaris' pen*

When using the pronoun **it** you do not need to add an apostrophe. This is because **its** is already a possessive pronoun.

For example:

*Look at its fins.*

Now try it. Rewrite these phrases using the possessive:

*the bag of Sara* → \_\_\_\_\_

*the desks of the students* → \_\_\_\_\_

*the books of James* → \_\_\_\_\_

3 Fill in the blanks with the correct words from the box.

first of all • but • additionally • then • also • however • for example

Last weekend, I went snorkeling with my friend.

1 ..... , we had to put  
our snorkels and swimming clothes in the car. When we got to the beach,  
we put on our snorkels and 2 ..... we walked  
to the water. The water was clear 3 .....  
it was very cold. We swam underwater and saw lots of coral and  
4 ..... lots of fish swimming.  
5 ..... , we saw other things,  
6 ..... , there were crabs and shells. We  
wanted to stay at the beach longer. 7 ..... ,  
we had to go home because the sun was going down.

4 Use your notes to write an informative paragraph about hammerhead sharks. Make correct use of possessives and use linking words.

.....

.....

.....

.....

.....

.....

.....

.....

.....

5  Read your partner's text. Check ✓ the boxes below if the answer to the question is yes.

| Is there information about hammerhead sharks? | Are possessives used correctly? | Are linking words used correctly? |
|-----------------------------------------------|---------------------------------|-----------------------------------|
|                                               |                                 |                                   |

# Review

## The Ocean

### ENGLISH

#### VOCABULARY

##### 1 Read the text below and complete the tasks..

Ocean pollution is a big problem today. Ocean pollution is garbage and chemicals that mix into the ocean salt water. Pollution affects ocean animals like fish, sea turtles, and whales. These animals are affected by the toxins in garbage, which makes them sick.

However, we can help the oceans stay clean. We can clean up garbage on the beach and recycle plastic. Engineers are also making new machines to clean up oceans. For example, the water wheel picks up garbage that comes out of the river before it reaches the ocean.

- Look at the vocabulary words below. Circle the words when they appear in the text.
- Look at the words around the text. Can you find the meaning of the word by reading the text around it? Write a definition for each word.

**garbage:** anything that humans throw out.

**pollution:** .....

**affect:** .....

**clean up:** .....

##### 2 Fill in the factsheet about the great white shark using the vocabulary words below.

carnivorous • fin • deep • prey • teeth • predator • oceans

##### 3 Unscramble the words and match them to their definitions.

- |                    |                                                                   |
|--------------------|-------------------------------------------------------------------|
| 1 lfato .....      | <b>A</b> energy that comes from the sun                           |
| 2 ulre .....       | <b>B</b> to stay on top of water                                  |
| 3 edendagren ..... | <b>C</b> an animal species that could disappear because of humans |
| 4 rsalo .....      | <b>D</b> to trick an animal into coming closer                    |
| 5 notxi .....      | <b>E</b> something poisonous or bad for you                       |

#### LANGUAGE FOCUS

##### 4 Read the sentences and circle the correct modal.

1. We **might** / **could** / **have** to clean the oceans. Ocean animals are dying!
2. You watch too much TV. I think you **should** / **might** / **could** read more.
3. Pandas are endangered. They **should** / **could** / **must** disappear.
4. I'm not sure why zebras have stripes. I think they **have to** / **should** / **might** hide them from predators.

#### FACTSHEET

##### The Great White Shark

The great white shark lives in many of the ..... around the world. It can swim far below the ocean, up to 1,200 meters

The great white shark is a large ..... fish. It eats only meat. The shark's ..... includes fish, seals, and small whales. The white shark is a top ..... in the food chain. No other animals eat the shark.

**5** Give advice to your friends. Use modals of suggestion **could, should** and obligation **must, have to**.

1 My stomach hurts.

.....  
.....  
(recommendation)

2 I don't think I'm ready for the test!

.....  
.....  
(suggestion)

3 My phone won't turn on.

.....  
.....  
(suggestion)

4 I am so tired!

.....  
.....  
(obligation)

5 I keep missing the bus.

.....  
.....  
(suggestion)

**SPEAKING**

**6** Think of a problem Emirati teens are facing today. Fill in the information below:

What is the problem?

.....  
.....

Why is this bad for teenagers?

.....  
.....

What can you do to help solve this problem?

.....  
.....

In your group, take turns presenting your problems. Explain why you think your problem is more important, but also listen to what others have to say. Ask each other questions. Afterwards, decide as a group what the most important problem is and why.

*I believe that...*

*I agree.....*

*We should...*

*I think that my problem is more important because ...*

**Self-assessment**

**Read the statements and tick the best description.**

I can listen to a podcast for detailed information about the problems and solutions of ocean pollution.

I can give and justify opinions in a discussion on ocean cleaning technologies for the GCC.

I can give my opinion about sharks in a written text.

I can read an informative text for specific information about glowing sea creatures.

I can write a short informative text about unusual ocean creatures and peer-evaluate.

Yes      Maybe      No
